

Graphic Design Camera Requirements

Requirements

As a student in the BFA Graphic Design Emphasis or BA with Graphic Design Concentration you will need a Digital Camera capable of producing high quality images for your photography and design courses.

DSLR Camera

Minimum of 10 megapixels.

Full manual control of aperture, shutter speed, focus and flash.

Capability for interchangeable lenses.

Zoom lens (18mm-55mm) (up to 135mm preferred)

Photo tripod.

Memory card (SDHC)

Memory card adapter for usb or usb-c

HD Video Recording capability (preferably with an audio input jack)

Recommendation

It is the recommendation of the Graphic Design faculty that you purchase the best camera that you can afford. Canon EOS series cameras are strongly recommended.

Student is also recommended to purchase a camera travel case.
